

Select Events  
Then Select Information Sessions

The screenshot shows the TigerLink student portal interface. At the top, there is a navigation bar with the University of Memphis logo and a search bar. Below this is a dark blue sidebar menu with various options: Home, Jobs, Profile, Documents, Events (highlighted with a red arrow), Career Fairs, Information Sessions, Workshops, On-Campus Interviews, Employers, Surveys, Resources, Calendar, and My Account. The main content area features a user profile for Clay Andrew Woemmel, a Doctoral Candidate Late Stage, graduating May 2016, with a 16% profile completion rate. Below the profile are three sections: 'Jobs For You' with two job listings (Research Fellowship and Data Entry), 'Events For You' with one event listing (Marriott International, Inc. Information session), and 'What's New' with a notification about job matches. On the right side, there are three panels: 'Shortcuts' with links to search for jobs, interviews, and career tools; 'Mock Interviews' with a play button icon; and 'Getting Started' with a checklist of completed tasks (Account Created, Personal Profile, Academic Profile, Privacy Settings). A feedback message 'Your feedback is welcome.' is also present at the bottom right.
